

*"Serving the Church by Reaching the Children"*

November 2021

Dear Friends,

I don't know if normalish is a real word, but it does describe ministry at the Kurowicki home and at Released Time Bible Class. Of the schools that I approached to schedule classes with this year, only one opted out. We still need to find a place to hold class for another school and at another district we will not be able to start until November but the rest of the classes started as normal in October. In most of my classes, attendance is about at traditional levels. However, there are still reminders of COVID. One school requires mask wearing for me and the children the whole time that we are together, and some children show up at other classes in masks. The children that have returned to classes that came before all of the shut downs are now a year and a half older, my, how they have grown!

Although I do not have classes in Lenawee County this year, there is still much work to be done. The Dansville, and Lansing Avenue classes are up and running and I am still providing visuals or Power Point lessons for them. Because of the reduced number of classes, I agreed to speak more often at the Know Your Bible (KYB) meetings in Onsted. Since another RBM Missionary speaks there also, I need to put together separate lessons for those classes. That means creating three lessons complete with Power Point on three of the months that I hold classes and two lessons on the other months.

It really is good to be out on the bus again picking up the children. I am enjoying reconnecting with pastors and helpers and school officials. It is good to write you with good news about classes. It is a blessing to have people like you praying for and supporting this ministry. Thank you! Praise the Lord!

In His service,

*Dave and Wendy*
