

Dear friends, thanks for praying for HK and China.

1. Covid 19: For the past 6 months by God's mercy Hong Kong escaped the worse of Covid 19. Yet, two weeks ago, Covid broke out in many communities in Hong Kong. More than 100 cases daily, for this tiny city. Schools have to close within two days notice. Churches have to go back to online services. Restaurants only open up to 6pm (people eat out not for pleasure but for necessities), and under distancing restrictions.

2. Protesters are learning to retrain to peaceful demonstration in the form of 'walking at shopping Malls', although police still intercept and detain some.
3. Some HK churches are seeing a harvest of young souls, and are teaching them to trust in God, and to look above the political turmoil. (just like how Christians in China have been, over decades).
4. Am sure you have read about the huge flooding in China and the locust coming across Himalaya. Pray for people in this vast land.
5. Today (22 July) HK begins another round of 40 day prayer ending in Aug 30. (in Chinese). You are welcome to join. Its good that we are at different time zone. You

can pray while we are sleeping.
