### Missions Committee

Friday evening there was a magnitude 6.8 earthquake in a country in north Africa. 6.8 is a strong earthquake and with construction materials being what they are, many older buildings, including homes, collapsed. Given it was just before midnight people were home with many sleeping. At this point, over 2000 people have died, with many being homeless.

Assume that we are involved, and will have more communications on how you can be involved. Given it has been a weekend and the context that exists after this strong of an earthquake it means we need to assess the needs and form a plan. We will know more shortly.

So for now:

1. Please pray for the people who are suffering and our response.

2. If you need specific information right away, please contact us directly.

Marty & Denise Shaw
