

Special greetings this New Year 2025

We are grateful for God because of all the goals we managed to achieve this past year 2024.

Many things happened in our family and we honored God because our twin daughters (Esther and Sarahy) finished high school and now they are preparing to attend college and continuing in their studies.

We have our ministry. We made some visits at the zones for the planting of new churches which are in the departments of Choluteca and Valle of Honduras. We are blessed because we are going to have the collaboration of a medical brigade, which is planned to happen in the first months of this year. Also this project is with the purpose of giving us visibility in the community and to evangelize which will make a way for new congregations.

We continue to move forward. We have many goals ahead of us and we are grateful for all of you because of the support that you give to our family. We keep working on the work that God has entrusted to us.

Prayer requests: We ask you to please not stop praying for our family and our petitions to God to do his work.

- 1. For our twin daughters that are going in January to college. They are moving to the capital of our country. Please pray for protection, provision, and for God to cover their lives.**
- 2. For a house in Choluteca so we can move there to continue God's work.**
- 3. For a school for our youngest daughter to attend and continue her studies.**
- 4. For economic provision: our economic support and for projects in the zone.**
- 5. So families may be converted to Christ.**
- 6. For plans, projects, and teams that can support us while working there.**
- 7. For people who can join us in this vision of winning this area for God with evangelism to change lives and communities.**

Thanks to everyone for being with us. You may help us by sharing about our family and the ministry with others so they may join this mission.

**Best regards, ISAIAS and Family Cantarero
We wish you a very Happy and Blessed 2025.**
